EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joy Alwan on 31 October 2005.

The application has been amended as follows:

Cancel claims 10-18.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The closest prior art appears to be Serrano et al. Serrano et al teach the steps of oxidizing the uranium to create positively charged uranium ions, depositing the ions onto a cathode as uranium metal and removing the uranium metal from the cathode. The prior art does not provide motivation for reoxidizing a portion of the deposited uranium metal so as to cause the reoxidized portion to separate from the cathode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
